| | Program | B.E. Civil (Construction) | <p>Re-accreditation is granted for two years i.e Intake Batches 2012-13 & 2013-14 as B.E Civil with specialization as "Construction Engineering" mentioned on the transcript.</p> <p>Intake batches enrolled from 2014-15 and onwards be also considered as part of B.E Civil Engineering program with specialization in "Construction Engineering" and not as a separate program of B.E Civil (Construction) for the purpose of accreditation, since all the resources (faculty, labs, and infrastructure etc.) are the same. Therefore, all future admissions for this specialization be offered as part of Civil Engineering program and intake be adjusted within the maximum allowable intake for Civil Engineering program i.e. 260 students per year.</p> <p>In case of non-compliance on the decision of 82nd EA&QEC/EAB and decision above, no further re-accreditation visit of Civil Engineering program will be conducted.</p> |

In case University desires to launch this program, University needs to follow the process of PEC for launching a new program including the approved curriculum from HEC.</p> <p>The observations/Concern/weak areas identified by the PEC visitation team must be addressed.
