2nd PEC DEANS International Conference of Engineering Institutions
“Globalization of Engineering Education and Practice”

Organized by Pakistan Engineering Council

In Collaboration with Higher Education Commision of Pakistan and Federation of Engineering Institution of Islamic Countries (FEICIC)

Federation of Engineering Institution of Asia and the Pacific (FEIAP)

14 -15 OCTOBER 2019 Serena Hotel, Islamabad Pakistan

PARTNERS & SPONSORS

MAIN THEMES
- Curriculum - benchmarking and good practices.
- Accreditation - challenges and solutions.
- International Accords/Agreements
- Collaboration and Linkages
- Innovative Teaching-Learning & Assessment Methodologies
- Engineering Profession and Practice

OBJECTIVES
- To make engineering education relevant to the societal and industrial requirements
- To transform outcome-based education and outcome-based accreditation by adopting best global practices, enabling engineering based industrial growth
- To build the institutional capacity of the senior management and the faculty of academic institutions to adopt outcome-based education
- To evolve frameworks to groom ethics, teamwork, project management and lifelong learning attributes among engineering graduates
- To connect with experts from signatory countries of Washington Accord for enriching engineering education, accreditation framework and engineering profession.

EXPECTED OUTCOMES
- Recommending a policy framework to enhance the standards and quality of engineering education and profession
- Building the institutional readiness and motivation for adopting outcome-based education
- Improving the efficiency and effectiveness of outcome-based accreditation by building capacity of Program Evaluators (PEVs)
- Transforming engineering pedagogy and professional practice frameworks to make engineers an engine of a vibrant industry and knowledge economy
- Grooming engineers as solution providers by solving complex interdisciplinary problems of the society.

POLICY ROUNTABLE
The Policy roundtable would be a major event during the Conference, to be attended by relevant experts from academia, industry and policy makers. The outcomes of technical sessions in the form of policy actions and corrective measures of each panel, would be shared by the respective Chairperson.

Registration Fee: Rs 3,000/-
