MEMORANDUM OF UNDERSTANDING  
(FRAMEWORK & ROAPMAP)  
Between  

CAPEC & PEC  
China Association of Plant Engineering Consultants & Pakistan Engineering Council  

PURPOSE  
In continuation of initial understanding dated 18-4-2017, the purpose of this Memorandum of Understanding (Framework & Roadmap) is to strengthen exchanges and cooperation between CAPEC and PEC (hereinafter referred to as Signatories), so as to benefit both signatories and each other's members.  

INTRODUCTION OF ORGANIZATIONS  
China Association of Plant Engineering Consultants (hereinafter referred to as CAPEC) is a national level non-profit professional organization in China's engineering consulting industry. It is organized by individuals and companies in the fields of plant engineering consulting, design, manufacturing and users, as well as urban planning, construction, built environment, etc. CAPEC is committed to promoting the establishment and application of plant engineering consulting system in China, standardizing plant engineering activities, safeguarding rights and interests of its members. Moreover, CAPEC is engaged to facilitate China's low carbon and green development by providing its professional service in various domestic and international programmes related to energy conservation, environment protection, and emission reduction.  

Pakistan Engineering Council (hereinafter referred to as PEC), is a professional and
professional engineers. PEC is dedicated to promoting education programs in applied science, computing and engineering. Established in 1976 by the PEC 1976 Act of the Constitution of Pakistan, it represents the engineering community in the country, and assists the government at the Federal and Provincial level. PEC grants license and issues registration of engineers, consulting engineers, technician. It is also discharged with the accreditation of engineering programs throughout the country. PEC also acts as a think tank to the government and undertakes efforts to establish scientific standards for engineering innovations and services. Its headquarters is located in Islamabad, Pakistan. PEC has a provisional signatory status with Washington Accord

Through friendly communication and consultation, both CAPEC and PEC have agreed to reach the following memorandum of understanding on framework cooperation:

AREAS of COOPERATION
The Signatories of this MoU intend to focus their cooperation on, but not limited to, the following areas:

1. Engineering Forum
Signatories will set up a cooperative engineering platform named as China-Pakistan Engineering Forum (CPEF) to play an important contributor to the building of the China-Pakistan Economic Corridor (CPEC). National level member organizations may be added in the Forum with mutual consent as “Founding Members” to ensure sustainability & ownership among the key member companies of both the Organizations

2. Service for Member Companies
2.1 CAPEC will help PEC members to establish business in Mainland of China, and PEC will help CAPEC members to establish business in Pakistan.
2.2 To improve the collaboration between the companies of both countries, Engineers
exchange programs among the member companies shall be promoted.

3. **Information Exchange**

3.1 Signatories will exchange publications (starting with electronic version), project information, etc. to promote collaboration between members of both organizations.

3.3 Signatories will share information on related events.

4. **Events and Visits**

4.1 Signatories can jointly organize events or send delegations to each other’s events when mutual interest of member companies exists, and recommend relevant experts/speakers.

4.2 Signatories will pay each other business visits at proper time and enhance cooperative ties and relations.

**FOCAL PERSONS**

To guarantee smooth and efficient communication, Signatories will appoint focal persons. The focal person from CAPEC side is Mr. Zhang Ruijie, Deputy Secretary-General, and the focal person from PEC side is Mr. Arif Inam Osmani, Director PEC. Long term focal persons for different Engineering sectors may be nominated from member companies at appropriate time.

**SETTLEMENT of DISPUTES**

This MoU is not intended to create any legal rights and obligations between the Signatories. Any dispute arising out of interpretation or implementation of this MoU shall be settled amicably by consultation between the Signatories.

**ENTRY into FORCE, DURATION, TERMINATION and EXTENSION**

This MoU will become effective on the date of the signature and shall remain in force for a long term until both parties consider a termination as necessary.

This MoU will terminate 30 days after one Signatory receives the other Party’s notice.
Signed on 15/05/2017, in two originals in English.
