

## Muhammad Shafiq Khan-Profile

A Professional Engineer having graduation Bachelor in Electrical Engineering (Power & Control Systems) from UET Peshawar in 1989 and Masters in Telecommunication Engineering & Management Sciences from UMT Lahore in 2005 and Masters in Business Administrations Human Resources Management from SUIT KPK in 2007 . A have a diploma certificate in Telecommunication Technologies from TSC Haripur, and multiple certifications and trainings in Programs & Project Management, ERP SAP Functional etc.

My professional career comprises over 35 years of working in several organizations given as below:

- **Bannu Sugar Mills:** I started my engineering professional career as Apprentice Engineer Electrical in Bannu Sugar Mills where I worked for one and half year. My accomplishment at BSM includes operations, repairs and maintenance of electrical plants comprising switchgear, motors, generations, powerhouse, boilers, modernization, expansion & upgradation of old dated machinery.
- **GoP State Engineering Corporation (SEC)** in August, 1990 as Trainee Engineer and worked in PECO Lahore and HMC Taxila where I was appointed as Assistant Manager and I worked three for around 5 years until Sep, 1996. During my tenure with HMC Taxila, I have worked in several different areas of HMC such as Electrical machinery maintenance, assembly line, planning and design, project management, etc.
- **Pakistan Telecommunication Company Ltd (PTCL):** Since my joining PTCL as ADE (Proby) in Sep, 1996 until till 3<sup>rd</sup> May, 2024, of over 27 years work performing in different roles across countrywide, I have multiple accomplishments in telecommunication network engineering, planning, deployment management, operations, administration and maintenance management, Programs & Project management, project executions, projects Procurement, Enterprise Resource Management, BPR, PMO , Change Management & Projects Financials Management, etc. I have an active professional career comprising plant maintenance, operations management, project planning, executions & rollouts, working in cross-functional teams, Business Partners qualification, evaluation & selections, project procurement evaluations, bids preparations & evaluation, costs and budget estimations, national and internal rollouts, Acceptance Testing & Commissioning, national and international trainings, certification courses, managerial and leadership skills, self and team development, and other special tasks.
- My last role with PTCL Group until my retirement in May 2024 was as Group Director PMO Projects Financial Monitoring.

In PTCL and telecom industry , I have the name and honor to be consulted in planning future projects of fiber networks, transport and FTTX network projects, digital transformation within the telecom sector on matters related to innovation, contract management and regulatory affairs. I love new initiatives, new projects, new assignments, grooming and mentoring young talent and new startups.
